

## Steven Eldam

Vice President  
Product and Resource Management  
and Tubular Strategy  
EVRAZ North America

Steven Eldam has been with EVRAZ since 2013. As Vice President – Product and Resource Management (PRM) and Tubular Strategy, he is responsible for sales and operations planning for EVRAZ North America, as well as the development of strategy for our tubular business.

Eldam came to EVRAZ as a principal from Booz & Company where he managed strategy and operations projects for automotive, industrial and chemical clients. He also spent seven years at General Motors in various manufacturing and engineering positions.

Eldam earned his MBA and a master's of science in mechanical engineering from the University of Michigan. He completed a bachelor's degree in mechanical engineering at the American University of Beirut.

### About EVRAZ

EVRAZ North America (the “Company”) is a wholly owned subsidiary of EVRAZ plc, one of the largest vertically integrated steel and mining businesses in the world. The Company is a leading North American producer of engineered steel products for rail, energy and industrial end markets. The Company has six production sites located in the USA (Portland, Oregon; Pueblo, Colorado) and Canada (Regina, Saskatchewan; Calgary, Camrose and Red Deer, Alberta).
