

## ON BEHALF OF THE THOUSANDS OF CANADIANS WORKING AT OUR REGINA OPERATIONS – KINDER MORGAN CANADA'S TRANS MOUNTAIN EXPANSION MATTERS

REGINA (February 7, 2018) – EVRAZ North America plc (the “Company”) is urging the British Columbian government to respect federal approvals and not block Kinder Morgan Canada’s Trans Mountain Expansion Project, saying that thousands of Canadian jobs are touched by this project.

“The Company was awarded a contract to produce approximately 275 thousand tons of pipe for this pipeline at our Regina Saskatchewan Operations. The pipe is produced here in Canada by Canadians and uses Canadian raw materials”, said Conrad Winkler - President and CEO of EVRAZ North America.

Manufacturing of the pipe required for construction of the Trans Mountain Expansion Project at EVRAZ facilities in Regina began on October 2017 following the awarding of a contract by Trans Mountain and will continue through May 2019. “This project is real and we are building it with Canadian workers, materials and technology,” said Winkler.

“EVRAZ North America operations in Canada employ over 2,000 people directly and generate between 6 and 10 times as many indirect jobs throughout the supply chain mainly across Western Canada. We are looking forward to a resolution to this impasse and to continuing production of the most technologically advanced, clean and safe steels for pipelines and oil country tubular goods right here in North America,” said Winkler.
